World Teacher's Day

5th October (internationally)

28th October 2022 (Australia)

Internationally, World Teachers' Day is held on 5th October, but here in Australia we move the event because this date is usually in the school holidays.

But what a great opportunity for teachers to join colleagues on the world stage via online experiences such as UNESCO's event where World President of OMEP will be talking in the section relating to teacher development.

https://mcusercontent.com/82178504eca5e268cef9ccee7/files/8d654580-1432-4159-b508-1304b209eb39/Final_CN_Lifelong_learning.pdf

Let's get the message heard. Better early childhood education, including access to quality affordable childcare, for *all* Australia's diverse groups of children, is needed to build the Australia we want. Add your voice - use the tag.
